

MEMORANDUM OF UNDERSTANDING

Between
(Universitas PGRI Semarang)
and
(DV-X α Society)

DV-X α

This Memorandum of Understanding (MOU) sets for the terms and understanding between the Universitas PGRI Semarang (UPGRIS) on behalf of the Faculty of Engineering and Informatics and the Discrete Variational-X α (DV-X α) Society to collaborate in academic areas.

Background

This partnership is necessary because the DV-X α Society needs to widen links with researchers, practitioners and other professions related to the field.

Purpose

The purpose of the partnership is twofold. Firstly, the aim is to broaden the network upon the related field of the study of DV-X α method in Indonesia especially with Universitas PGRI Semarang and other universities in Indonesia. Secondly, the goal is to strengthen the relationship between the DV-X α society and Universitas PGRI Semarang so that the university can become a part of the society in Indonesia.

The above goals will be accomplished by undertaking mutual collaboration related to the following programmes:

1. Exchange of research materials
2. Joint research
3. Joint conference and workshop

Reporting

For the effectiveness, the programme will be supervised by the board members of the society and the university during the preparation, implementation and evaluated after the completion of the programmes.

Duration

This MOU is at-will and may be modified by mutual consent of authorized officials from UPGRIS and DV-X α Society. This MOU shall become effective upon signature by the authorized officials from the UPGRIS and DV-X α Society and will remain in effect until modified or terminated by any one of the partners by mutual consent. In the absence of mutual agreement by the authorized officials from UPGRIS and DV-X α Society this MOU shall end for four years.
